

DEPARTMENT OF CHEMISTRY

Session: 2022-23

Department of Chemistry was established in 2012. The department of Chemistry focuses on theoretical and practical knowledge, discipline by assigning students class test, assignments, experiments, viva and group discussion etc. Our students always achieved position in the university merit list. Monu got 1st position in B.Sc. Non Medical 6th semester in University. We give our best to make our students understand the subject. We not only give the bookish knowledge to our students but help them nourishing their personality by engaging them in power point presentation and group discussion.

The department organised various activities during the academic session 2022-23 to develop competitiveness among the students. The details of activities are as follows-

1. Quiz Competition was held on 7 Oct, 2022. 18 students took part in it. Following students secured positions:
