Report of the Event

On November 24th, 2023 an extension lecture on the topic 'Cyber Security' was organized at Indus Public School, Burain (Pillukhera) by Mrs. Sunita, assistant professor, Department of Computer Science, Hindu Kanya Mahavidyalaya, Jind. This activity was organised under the MoU with Indus Public School under which Mrs. Sunita made the students aware about cyber security and explained that do not click on any unknown link, keep updating your system, use antivirus, get information about any application before using it. One single security breach can lead to exposing the personal information of millions of people. These breaches have a strong financial impact on the companies and also loss of the trust of customers. Many such important information was given about the topic of cyber security. On this occasion, Mrs. Nitisha of English Department, Miss Akanksha and staff of Indus Public School were especially present. About 35 students of college and 76 students of school attend this lecture. President of the management committee of the college, Dr. Anshul Singla Ji and other members congratulated the teachers for their commendable work.
