

Computer Science (2022-23)

The Computer Science Department started in 2009. Computer Science as an elective subject is taught in B.A. , B.Sc. and B.A. Maths (Hons.). There is also an add-on course in Information Technology (IT) in our college.

Striking the delicate balance between theory and practical, the Computer Science Department of Hindu Kanya Mahavidyalaya provides a well-rounded education through innovative methods to meet the needs of our students. Computer Science Department has a unique blend of faculty and facilities that offers students a rare opportunity to learn Computer Science in new collaborative ways. We have Computer Science society which focuses on imparting the knowledge of computers to our students and help them nourish their personalities using different types of activities i.e., by engaging them in the seminar, presentations, workshops and group discussion etc. We have worked on arranging various workshops frequently for the students to keep them up to date in this advanced era of technology.

We focus on not only completing the syllabus but also enhancing their knowledge of technology. We encourage the students to participate in State and National Level Competitions.

Activities organized by Department

Our department organized various activities during the session 2022-23. The details are as follows –
