

Anti Drug Awareness Cell
Hindu Kanya Mahavidyalaya, Jind
Event: Tree Plantation Programme
27th August, 2025

On August 27th, 2025 under the 'Nasha Mukt Bharat Abhiyan', the 'Anti Drug Awareness Cell' of Hindu Kanya Mahavidyalaya, Jind organized an important Tree Plantation Program to inspire students to lead a drug-free life and understand the importance of environmental conservation.

The program was held in the college's Herbal Park, where guava plants were planted. On this occasion, 50 students participated, contributing to the plantation with enthusiasm and zeal. The program was conducted by Dr. Seema, who provided detailed information to the students about the importance of plantation and drug de-addiction.

The college Principal, Dr. Poonam Mor inaugurated the program by planting a guava plant with her own hands. Addressing the students, she said that by planting and caring for plants, we can not only protect the environment but also contribute to building a drug-free society. She said that plants are very important for our lives and we should make every possible effort to save them.

The Principal further said that to achieve drug de-addiction, we need to spread awareness in our society and inform people about the harmful effects of drugs. She said that through this plantation program, we can take an important step towards building a drug-free society.

At the end of the program, all the students took a pledge to build a drug-free society and understand the importance of plantation. The program concluded with a vote of thanks, in which Dr. Seema thanked everyone and said that this program will definitely contribute to a drug-free society.
