Event: Awareness Lecture on 'Guardians of Nature: Conserving Water and Energy for Tomorrow' in Haibatpur Village

16th March, 2026

An Awareness Lecture on the topic 'Guardians of Nature: Conserving Water and Energy for Tomorrow' was organized on 16th March, 2026 in village Haibatpur by the Eco and Energy Conservation Club of Hindu Kanya Mahavidyalaya, Jind. The program was inaugurated by the college Principal Dr. Poonam Mor, who flagged off the students for the event. The main speaker of the program was Mrs. Pooja, Assistant Professor of Physics of Hindu Kanya Mahavidyalaya, Jind. The program was coordinated by Mrs. Arti Saini, Convener of the Eco Club, along with Dr. Sushma Garg, Co-Convener.

On this occasion, Mrs. Pooja addressed rural women and students and explained in detail the importance of water and energy conservation. In her address, she said that in the present time it has become extremely important to conserve natural resources such as water and energy. If these resources are not used wisely today, future generations may face serious problems. She emphasized saving water in daily life, rainwater harvesting, judicious use of electricity and staying environmentally aware.

During the program, Mrs. Arti Saini also motivated the rural women and students to take small steps towards environmental protection, such as turning off unnecessary electrical appliances, preventing wastage of water and planting more trees.

A total of 12 rural women and 30 students enthusiastically participated in the program. The college principal appreciated such awareness programs and described them as highly beneficial for society. She stated that the main objective of such initiatives is to spread awareness among people about environmental conservation.
