Event: Workshop on 'Research Methodology'
9th March, 2024

On March 9th, 2024 an online workshop on the topic 'Research Methodology' was organized by the Geography Department of Hindu Kanya Mahavidyalaya, Jind. The workshop was presided over by the Principal of the college, Dr. Punam Mor and coordinated by Mrs. Ranjana Garg, Head of the Geography Department. Ms. Monika, the spokesperson of the workshop is doing Ph.D. in Geography from Banaras Hindu University. Monika is an alumna of the college. She not only topped in Hindu Kanya Mahavidyalaya, Jind but also won a gold medal in M.Sc. Geography by topping Kurukshetra University, Kurukshetra. While discussing the topic of 'Research Methodology' in detail, the spokesperson of the workshop, Ms. Monika said that research is a systematic process, the objective of which is to gain knowledge regarding various phenomena and problems. She also said that the main objective of research is to find out information which has not been discovered yet. For example, in 1965 food grains were a big problem. At that time, scientists started research work by adopting research method in the context of food grains and got rid of the food problem by inventing the Green Revolution. In this way, to conduct research, one has to go through many stages like selection of problems, formulation of hypothesis, design of research, collection of data, analysis of data and finally conclusions and suggestions. The students participated enthusiastically in this workshop. Teachers of Geography Department, Dr. Munni Jaglan and Mrs. Rajni also had full cooperation in successfully organizing this workshop. Finally the workshop was concluded by a vote of thanks by Mrs. Ranjana Garg.
