NSS Special One-Day Camp Successfully Concludes: Volunteers Learn Important Life Skills October 4, 2025: A special one-day camp organized by the National Service Scheme (NSS) successfully concluded on the college campus. The program was presided over by the College Principal, Dr. Poonam Mor, who, in her inspiring address, emphasized the importance of discipline, selfless service, and a collective spirit among the volunteers. Under the expert guidance of NSS Program Officer, Mrs. Kranti, a total of 62 female volunteers actively participated in the event. Principal Madam encouraged the volunteers to play an active role in nation-building, fostering in them a spirit of service and responsibility.

During the Talent Search Program, the volunteers-maintained discipline, thereby learning the qualities of discipline and leadership. Throughout this period, the volunteers played a crucial role in maintaining college discipline. They learned how to maintain an organized environment and how to conduct group activities by adhering to rules. This experience proved instrumental in honing their leadership skills. Additionally, the volunteers were instructed to prevent any other volunteer from creating unwanted videos or disrupting dance performances during the program, which helped them understand the importance of respecting others' creativity and appropriate behavior in collective events.

A 'Plastic-Free Campus' campaign and a cleanliness drive were also conducted during the camp. The volunteers pledged not to litter and to personally clean up any dirt found on the campus. This activity instilled in them a deep awareness and sense of responsibility towards the environment, enabling them to understand the importance of keeping their surroundings clean and green. By adhering to instructions such as arriving at the venue on time and promptly informing organizers in case of any emergency, the volunteers learned the value of promptness, time management, and mutual cooperation. Overall, this one-day camp equipped 62 female volunteers with important life skills that will prove invaluable for their personal and social development.
