18. Objective (100 Words)	The objective of the virtual expert talk on “Research Publication & Dissemination” is to enhance participants’ understanding of scientific research writing, publication ethics, and dissemination practices. It aims to guide students and faculty on selecting appropriate peer-reviewed journals and avoiding predatory publications. The session seeks to promote quality research, ethical standards, and effective communication of scholarly work in academic and professional domains.
19. Benefit in terms of Learning/Skill/Knowledge obtained (150 Words)	This expert talk provides valuable knowledge about the process of writing and publishing research papers in reputed journals. It enhances understanding of publication ethics, plagiarism issues, and maintaining academic integrity. Participants learn how to identify credible peer-reviewed journals and avoid predatory publishers, ensuring the quality of their research work. The session improves research writing skills, critical thinking, and awareness of global academic standards. Interaction with experts helps build confidence and clarity in presenting and disseminating research findings. Additionally, it supports academic growth, encourages research-oriented learning, and prepares students and faculty for future scholarly contributions. Overall, the session strengthens the research culture within the institution.

Report

The Department of Mathematics and the Research and Development Cell of Hindu Kanya Mahavidyalaya, Jind jointly organized an impressive and informative Expert Talk on 'Research Publications and Dissemination' in online mode on April 22nd, 2026. The program aimed to raise awareness among students, researchers and faculty members about research work, its publication, quality standards and ethical considerations. The program began with a formal welcome. The keynote speakers were Dr. Rekha (Assistant Professor of Chemistry, Government College for Women, Madlauda) and Dr. Vasudha Jolly (Assistant Professor of Economics, Rajdhani College, New Delhi). In her lecture, Dr. Rekha discussed in detail the topic of 'Scientific Research Writing, Ethics, and Publication Standards'. She informed the students about the correct process of writing a research paper, the proper use of references, avoiding plagiarism and the standards required for publishing in international journals. She also explained that topic selection, clarity of the problem, data analysis and accuracy of conclusions are crucial for an effective research paper. Her lecture instilled in the students the message of seriousness and honesty in research.

The second speaker, Dr. Vasudha Jolly shared valuable information on the topic 'Selection of Peer-Reviewed Journal and How to Avoid Predatory Publications'. She explained to the students how to select reliable and quality journals and how to identify fraudulent or predatory journals. She highlighted important aspects such as the UGC-CARE list, impact factor,

indexing and emphasized the need for careful research publication.

An interactive session was also held during the program, in which students enthusiastically participated and sought guidance from experts through their questions. This interactive session addressed their queries and inspired them to pursue research further.

The program was successfully conducted and coordinated by Dr. Sushma Garg (Convener, R&D Cell) and Mrs. Anju (In-charge, Mathematics Department). They presented the program's outline and highlighted its importance. In her address, Dr. Poonam Mor, Principal of the college stated that research and innovation have become an integral part of education today, and such programs provide new direction for students. She encouraged all participants to actively participate in research.

Faculty members from various departments of the college and 45 students participated in the program. All found the lectures extremely useful and inspiring.

The program concluded with a vote of thanks. The organizers expressed their commitment to organize similar educational and research-oriented programs in the future, so that students' knowledge, skills and research capabilities can continue to be developed.
