# Report

An Expert lecture on the topic “Entrepreneurship Skill Development” was organized on April 15, 2026, at Hindu Kanya Mahavidyalaya, Jind under the joint aegis of the Institution Innovation Council (IIC) and the Department of Computer Science. The primary objective of the program was to enhance awareness among students about entrepreneurship, foster a spirit of innovation, and motivate them to become self-reliant.

The program commenced under the guidance of Dr. Priyanka Sahni, followed by a formal welcome of the distinguished guests.

In her presidential address, the Principal of the college, Dr. Poonam Mor, emphasized that in today’s competitive era, a degree alone is not sufficient; skill development and innovation are the true keys to success. She encouraged students to become self-reliant and to transform their innovative ideas into reality.

On this occasion, three distinguished speakers from Msoftcode Company—Mr. Uday Adhikari (Full Stack Developer), Mr. Ashmeet Singh (Business Development Executive), and Mr. Yogesh Chahal (Business Development Executive)—shared their insights on various dimensions of entrepreneurship.

Mr. Uday Adhikari highlighted the importance of technical skills in the digital age and explained how students can utilize modern technologies to start their own ventures. He also discussed opportunities in full stack development, web technologies, coding, and programming.

Mr. Ashmeet Singh focused on the core principles of business development, including market research, understanding customer

behaviour, and the importance of effective communication skills. He stated that proper planning, patience, and consistent efforts are essential for becoming a successful entrepreneur.

Mr. Yogesh Chahal elaborated on the practical aspects of startups such as funding, team management, networking, and digital marketing strategies. He motivated students to start small and gradually achieve bigger goals. During the session, students actively participated by asking several questions, which were answered satisfactorily by the speakers. This interactive session further enhanced their enthusiasm and curiosity towards entrepreneurship.

The program was successfully conducted by Dr. Priyanka Sahni (Assistant Professor, Economics and IIC Convener), who also outlined the importance of such initiatives in the overall development of students. On this occasion, Co-Coordinator Mrs. Sunita and Mrs. Shivani made significant contributions. Faculty members from the Computer Science Department Mrs. Ritu, Mrs. Prachi, Ms. Shreya and Ms. Surbhi were also present. Approximately 63 students participated in the event. At the end of the program, all the guests were honored with certificates of appreciation, followed by a formal vote of thanks.
