## Report

On November 13, 2025, an online expert session on "My Story - Inspiring Sessions by Successful Innovators" was organized at Hindu Kanya Mahavidyalaya under the joint auspices of the IIC (Institutional Innovation Council) and the Department of Political Science. The event was chaired by the Principal of the college, Dr. Poonam Mor, and Mrs. Surabhi was also appreciated for her presence. At the beginning of the event, the Principal of the college welcomed all the distinguished speakers and expressed her views on the relevance of this invited talk. She stated that this session was organized to inspire students to be inspired by the stories of successful individuals in various fields and to make them aware of the importance of innovation and entrepreneurship. This program will encourage students to bring positive change in their lives and adopt new ideas.

The program was conducted by Dr. Priyanka Sahni, Coordinator of the IIC, Mrs. Neelam, Head of the Department of Political Science, and Mrs. Kranti, Co-ordinator. The main objective of the program was to educate students about the importance of innovation and successful entrepreneurship. The organizers stated that this session would not only provide students with an opportunity to learn from the experiences of successful innovators but also inspire them to develop their own creativity and entrepreneurial abilities.

In the **first session, Dr. Rajendra Chaudhary**, a retired professor from the Department of Economics at Maharishi Dayanand University, Rohtak shared his views. He highlighted the fundamental concepts of "organic-natural farming, the only option for safe and nutritious food and profitable farming." He explained to the students how organic and natural farming is crucial today not only for the environment but also for our health. This session was crucial to sensitizing students about

healthy lifestyles and sustainable agricultural practices, so that they can contribute to this in the future.

Successful natural farmer **Mr. Sudhir Bhukar** participated in the second session. He shared his 25 years of experience in natural and organic farming. He began his natural farming journey with his father in the year 2000. Along this journey, he faced many challenges, such as the initial difficulties of transitioning from conventional farming to organic farming, establishing a strong market for organic products, and educating people about the benefits of organic farming. Through his hard work and dedication, he overcame all these obstacles and became a successful organic farmer, who today serves as an inspiration to many other farmers.

The **third speaker, Mr. Arjun Nain**, Manager/India SRM Lead, Enterprise Physical Security Systems & Technology, discussed "Why sugarcane and its products are essential in every household and the benefits of natural and organic farming." He explained that consuming sugarcane and its products, especially natural jaggery and sugar, provides numerous health benefits, such as increased immunity and improved digestion. In today's era, when people are becoming more health-conscious, the importance of naturally grown sugarcane and its products is even greater. This topic inspired students to adopt a healthy lifestyle and understand the importance of natural products.

At the end of the program, the college's Principal, Dr. Poonam Mor, who is also the President of IIC, congratulated the IIC and Political Science faculty for the successful conduct of the program. She encouraged the students, saying that knowledge of natural farming and organic products would be important for them in the future. This would help them adopt healthy lifestyles and contribute constructively to society. All the students participated enthusiastically and satisfied their curiosity by asking questions of the experts. Miss Surbhi's contribution to this program was special.
